

Lake Lansing Advisory Committee

Scheduled Treatment Notice

Wednesday, June 08, 2022

HERBICIDE TREATMENT: Lake Lansing is scheduled to be chemically treated on Wednesday June 08, 2022. The actual application date and time is subject to change because it is dependent on a number of factors including weather.

Please see attached Posting and Posting Map for details and restrictions. One of the attached notices will be posted along the shoreline of all and/or any affected properties on the day of application.

Note; This application will involve two different posting notices, because of the application of different chemicals in different areas of the lake.

The major note, is the longer restriction on using the lake for watering lawns, . The Applicator wrote the following:

“The reason I am posting with different signs is the Renovate has a 120 day irrigation restriction listed, which causes a lot of unneeded anxiety if people see a restriction of any kind lasting until October. In reality, only a few homes where we will be using renovate near shore will have any restriction associated with its use, and those restrictions will be much less than what is listed on the sign.”

I would expect they will give us an update when they return in a couple weeks for an update survey as to the status of lawn watering.

This notice and alert through Next Door and Facebook has been processed for the Lake Lansing Special Assessment District Advisory Committee by Meridian Township. This notice as well as future and past notices can be found on the Meridian Township website https://www.meridian.mi.us/government/boards-and-commissions/lake-lansing-advisory-committee/-folder-3186#docan1761_1847_1543.

Thank you,

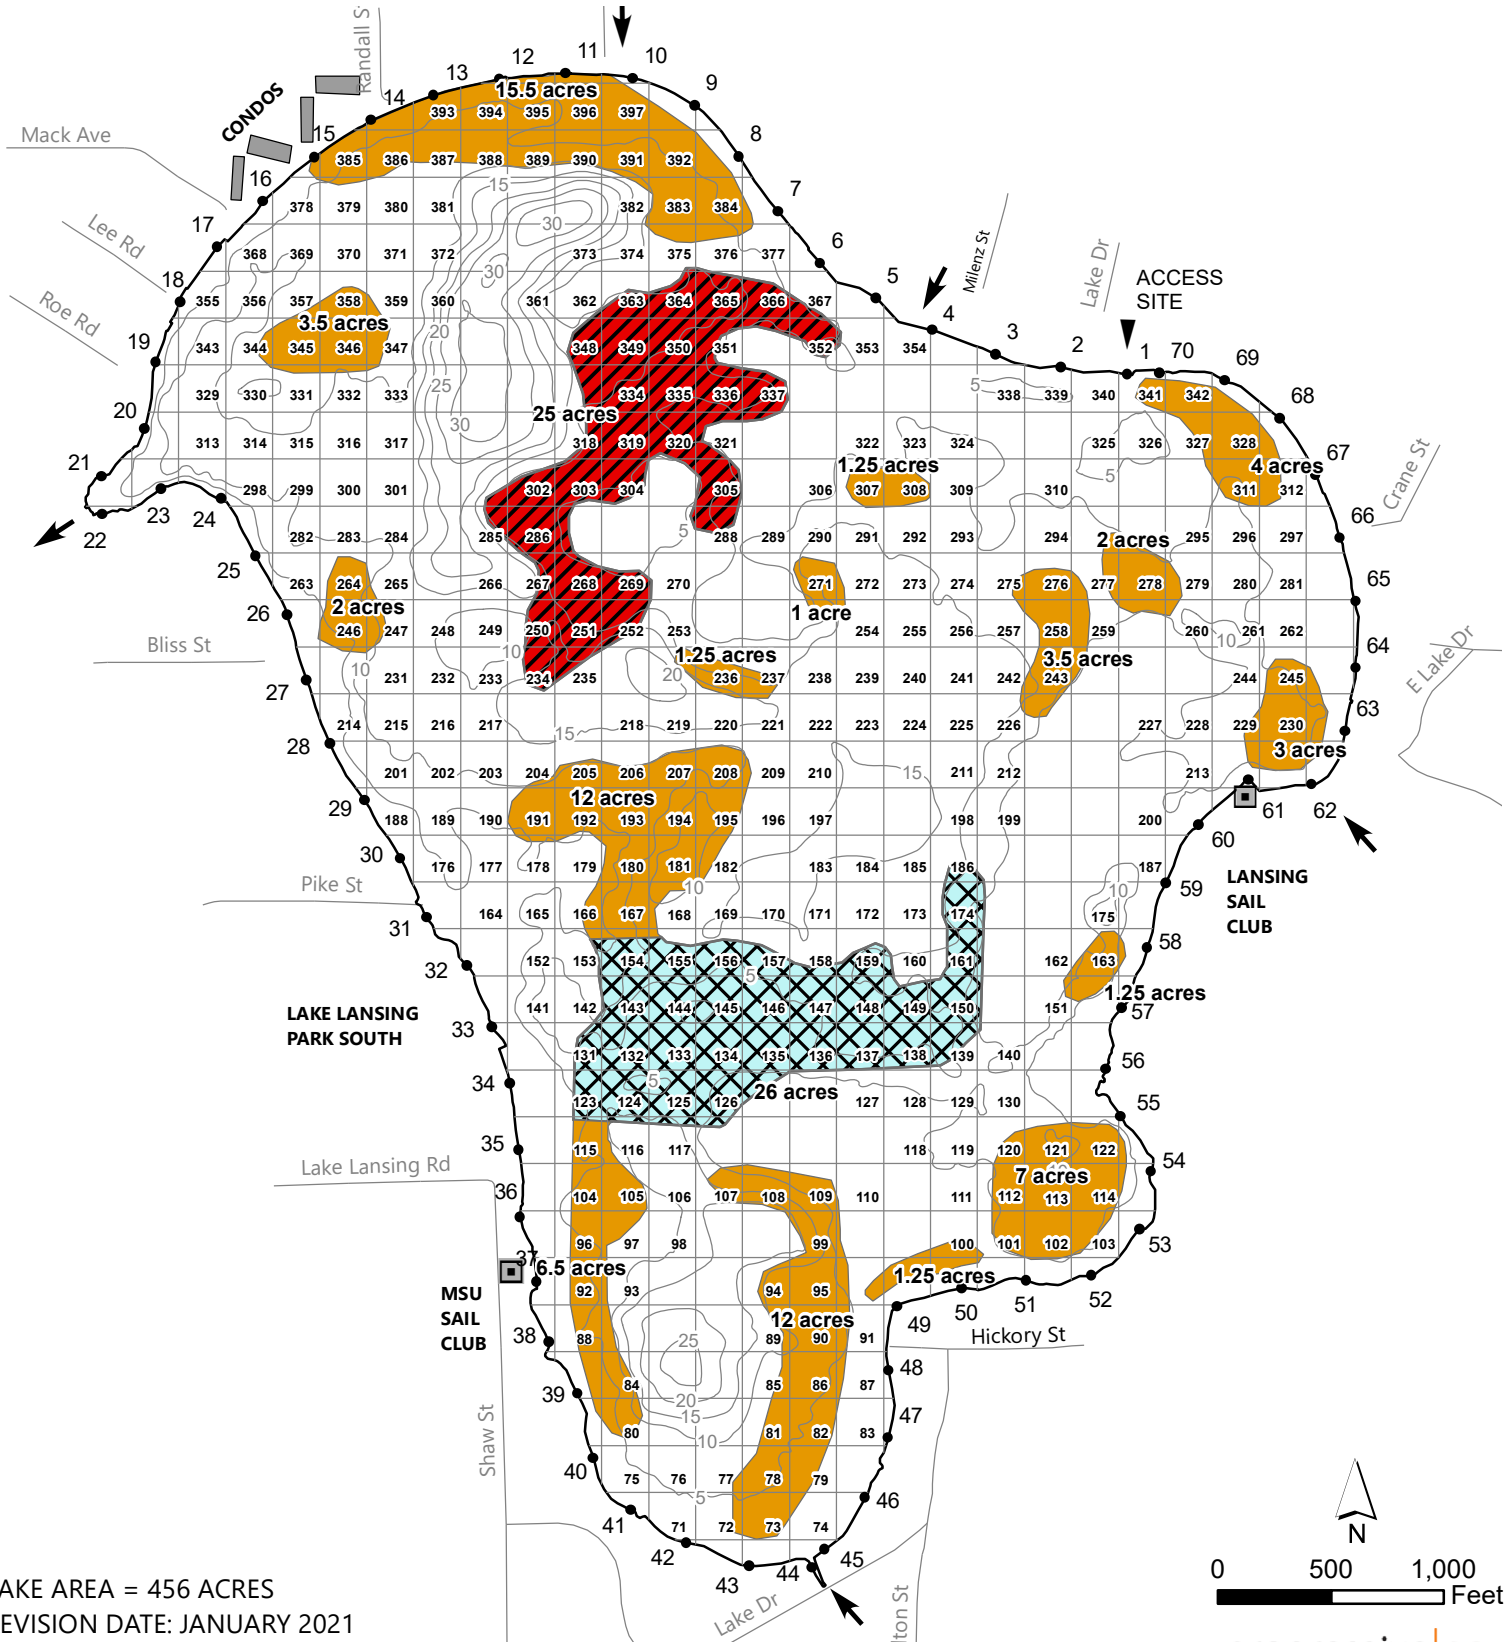

Lake Lansing Special Assessment District
Advisory Committee

☐ = 1 ACRE GRID

LAKE LANSING INGHAM COUNTY, MICHIGAN MAY 25, 2022 TREATMENT MAP
