

**Lake Lansing Watershed**  
**Special Assessment District Advisory Committee**  
**Scheduled Treatment Notice**  
**Wednesday July 23, 2025**

---

**HERBICIDE TREATMENT:** Lake Lansing is scheduled to be chemically treated on Wednesday, July 23, 2025. The actual application date and time is subject to change because it is dependent on several factors including weather.

Please see attached Posting Map and Posting Sign for details and restrictions. This is the same sign that will be posted along the shoreline on the day of application.

This treatment is mostly near the shoreline, so the restrictions on the Posting Sign and Map may be especially worth noting.

This treatment is noteworthy, in a small way, in that the area of detected Eurasian Milfoil is very small, indicating that we may be gaining on its eventual eradication. The facts are that Lake Lansing is a very fertile “garden” for many plants. A couple are trying to fill the void left by the Milfoil. The Curly-leaf Pondweed (Native or non-invasive) is still proliferating.

The lake will be surveyed a few weeks after treatment to determine the effectiveness of the treatment and to assess the need for harvesting and/or more treatment. Remember, Milfoil is best not harvested until after treatment has succeeded but before it falls.

This notice and alert through Facebook and Next Door have been produced for the Lake Lansing Watershed Special Assessment District Advisory Committee by Meridian Township. This notice as well as future notices can be found on the Meridian Township web site; [website](#).

Thank you,

Lake Lansing Special Assessment District  
Advisory Committee

# NOTICE

## DO NOT REMOVE POSTING SIGNS OR MAPS UNTIL ALL WATER USE RESTRICTIONS HAVE EXPIRED

This area of Lansing, Lake was chemically treated on 7/23/2025 for the control of an aquatic nuisance (Weed Treatment) under:

EGLE Permit No. ANC9808939

EGLE Certificate of Coverage No. \_\_\_\_\_

Permit by Rule, pursuant to R323.3102 (2)

**PLM Lake & Land Management Corp. Certified Applicator(s) Conducting Treatment:** Steve Hanson

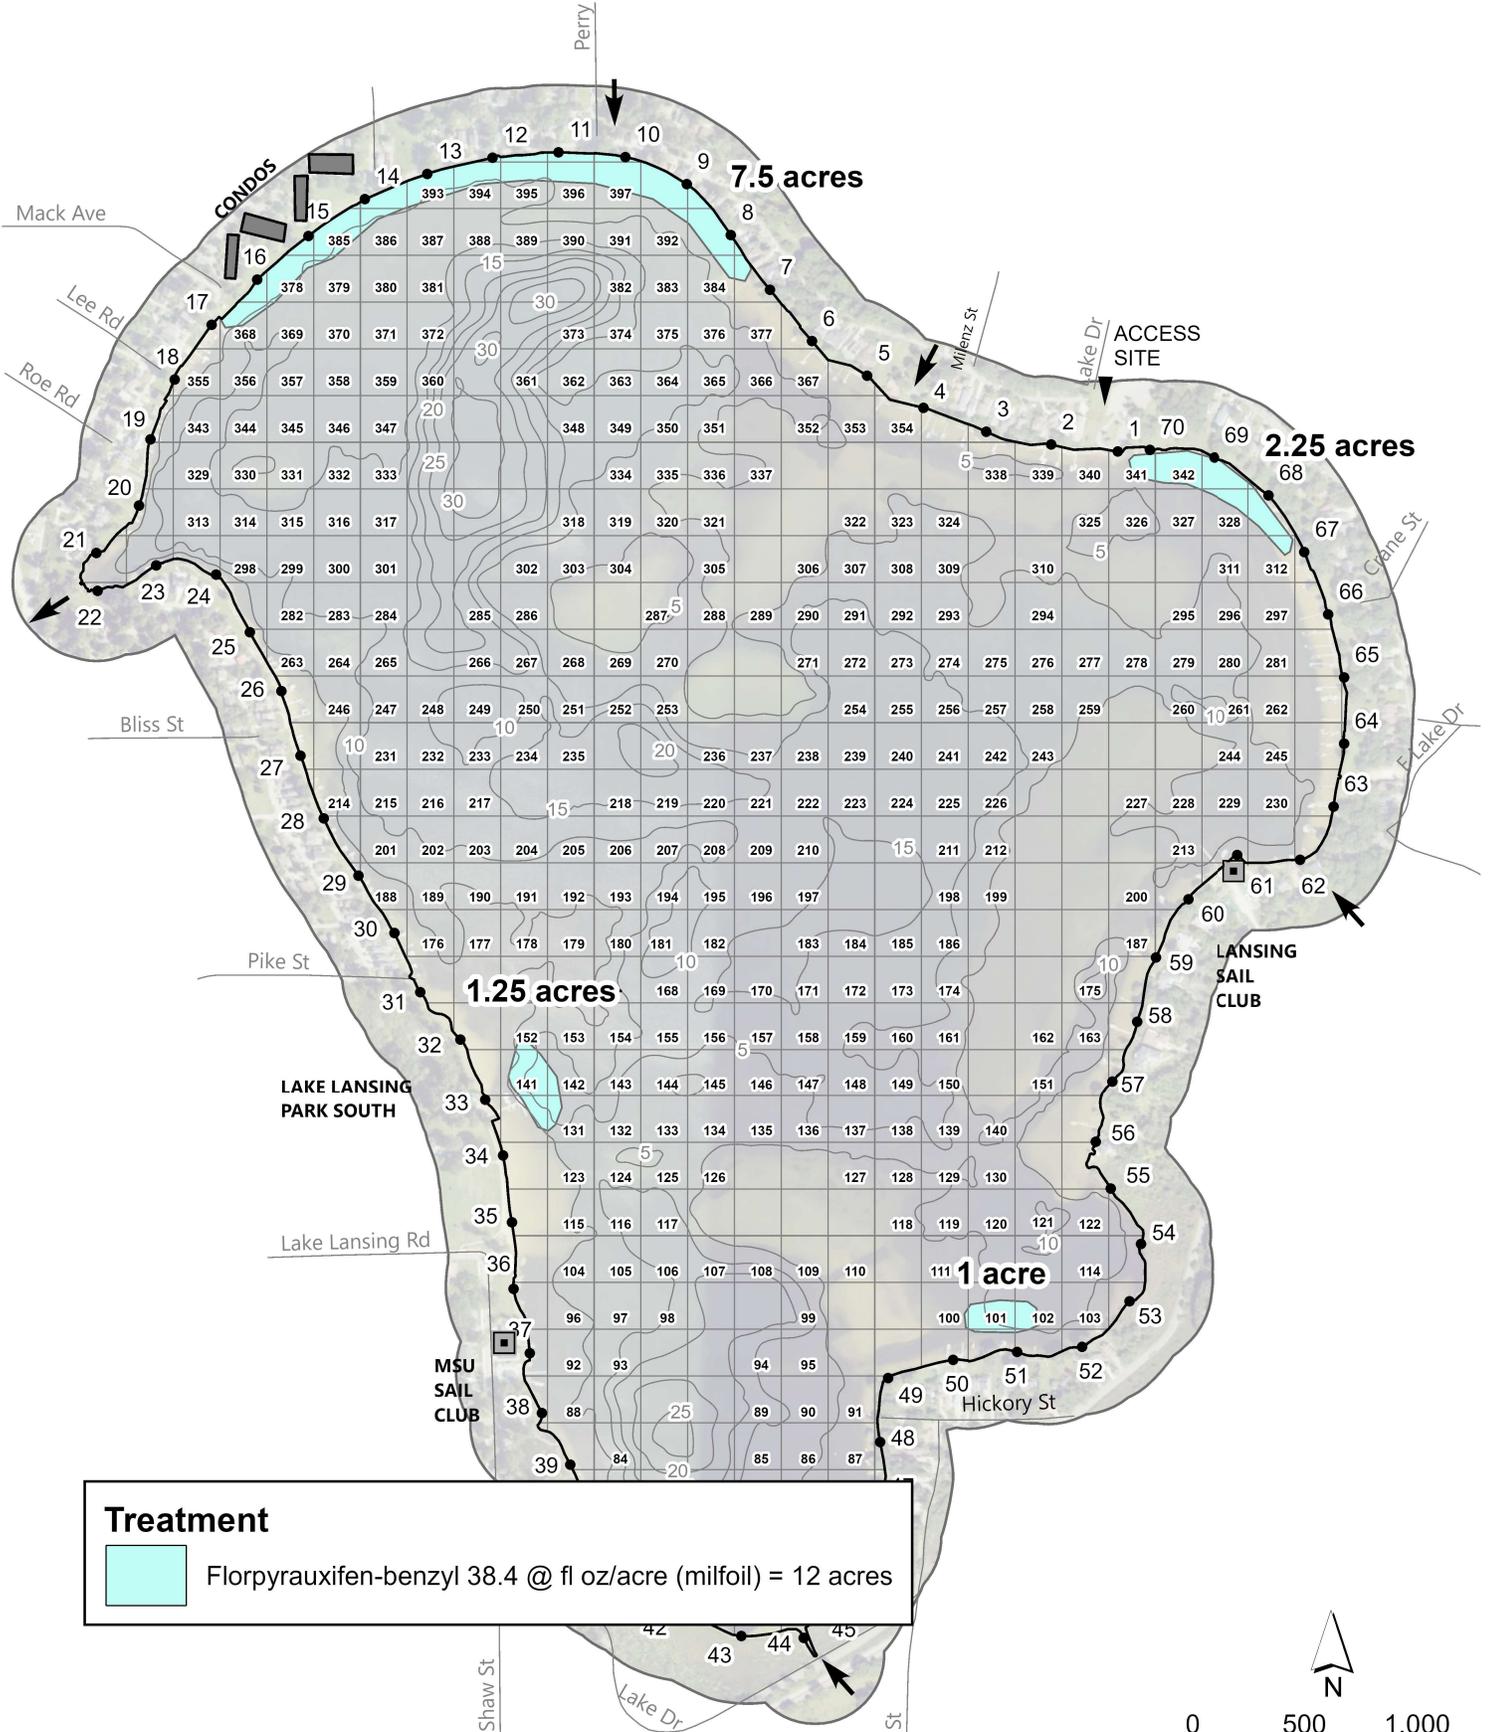

**PLM Lake & Land Management Corp. Certified Applicators:** Adam Jones, Andrew Weinberg, Andy Tomaszewski, Benton Kuzee-Essex, BreAnne Grabill, Casey Shoaff, Colton Risner, Cory Robinett, Daulton Higgins, Dennis Vangessel, Dustin Grabill, Dylan Broekstra, Elijah Quinn, Eric Reed, Ethan Ford, Garrett Johnson, Hailey Birchmeier, Hannah Cornell, Holden Elsner, Jaimee Desjardins, Jake Hunt, James Scherer, Jason Broekstra, Jeff Fischer, Jeff Tolan, Keith terHorst, Kyle Heath, Landon Conroy, Lucas Slagel, Michael Pichla, Nathaniel Draper, Noah Hanson, Pierce Johnson, Preston Adgate, Preston Wallace, Raquelle Robbins, Reese Ransom, Riley Ransom, Samuel Bailey, Shelby Robinett, Steve Hanson, Tate Gardner, William Conklin, William Ducham

The chemicals used for Aquatic Nuisance Control are registered by the U.S. Environmental Protection Agency and the Michigan Department of Agriculture. The potential for damage to fish and other non-target organisms is minimal provided that the product is used as directed on the product label and the permit. To minimize the possible effects on health and the environment, the treated water is restricted for the above purposes.

**Method of Application:** Chemical application will be made via boat, back pack, and/or land vehicle applying liquid surface products by surface spray and/or injection. Granular product application will be surface broadcast.
